

You're Invited: A Special Offer for Lifespan.md Clinics from Spruce Health

Spruce is the only healthcare-specific solution that transforms your practice workflows with a HIPAA-grade, cloud-based communication platform that seamlessly integrates a robust business phone system with texting, faxing, and telemedicine.

We're already proud to partner with several practices in the [Lifespan.md](#) network who use Spruce to power their patient communication. To make it easy for you to join them, we are extending exclusive, preferred rates to your practice. Discover firsthand why your peers have chosen Spruce with a complimentary 14-day trial – no upfront commitment.

Why Upgrade Your Clinic's Communication?

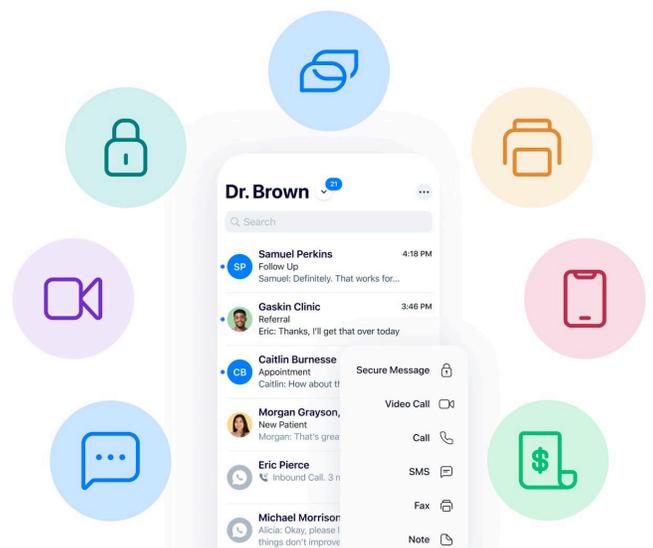

Spruce consolidates all of your clinic's communication into a single, secure, and easy-to-use platform.

- **All-In-One Platform:** See every call, text, fax, and voicemail related to a patient, all in one place. Your entire team stays in sync – without the chaos.
- **Texting Done Right:** Send and receive SMS texts, pictures, or videos – no patient login, app, or portal required.
- **Automation & Efficiency:** Help staff handle patient needs effectively with advanced call routing & auto-replies to missed calls, paging, and easy after-hours management.
- **Transparency & Auditability:** Make informed decisions to manage your practice. Every touchpoint is logged – providing clear audit trails and ownership for every patient.
- **Compliance & Reliability:** Protect patient data and ensure regulatory compliance. Every Spruce plan includes a BAA and is built for high reliability with 99.9% uptime.
- **Integrate Your Systems Seamlessly:** Sync Spruce to EHRs like athenahealth, Elation, and more for streamlined documentation, instant call data, and minimized errors.

See Real Results with Spruce

Wondering what Spruce can do for your bottom line? See how one practice **saved 67% on their overall communication costs** after making the switch.
